Management's Statement of Responsibility for the Preparation and Approval of the Consolidated Financial Statements for the Year ended December 31, 2024

The following statement, which should be read in conjunction with the independent auditors' responsibilities stated in the independent auditors' report provided, is made with a view to distinguishing the respective responsibilities of the auditors in relation to the consolidated financial statements of Tengri Partners Investment Banking (Kazakhstan) JSC and its subsidiaries (hereinafter referred to as the "Group").

The Group Management is responsible for preparation of Consolidated Financial Statements fairly recording the Group financial position as of December 31, 2024, as well as the results of its operations, cash flows and changes in Equity for the year then ended, in accordance with the International Financial Reporting Standards (IFRS).

In preparation of the Financial Statements, Management is responsible for:

- selection of appropriate accounting principles and their sequential application;
- application of reasonable judgments and estimates;
- compliance with IFRS, or disclosure any material departures from IFRS in the notes to the Consolidated Financial Statements; as well as
- preparation of the Consolidated Financial Statements on a going concern basis, unless it is inappropriate to presume that the Group will continue in business.

Management is also responsible for:

- designing, implementing, and maintaining an effective and reliable internal control system within the Group;
- maintaining an accounting system that enables the preparation of information on the Group's financial position with reasonable accuracy at any time and ensures that the consolidated financial statements comply with IFRS;
- maintaining accounting records in accordance with the legislation of the Republic of Kazakhstan;
- taking measures within its authority to safeguard the Group's assets;
- identifying and preventing fraud and other irregularities.

These Consolidated Financial Statements for the year ended December 31, 2024, were authorized for issue on April 30, 2025, by the management of the Group.

PKF Audit & Assurance LLP

INDEPENDENT AUDITOR'S REPORT

To Owners of Tengri Partners Investment Banking (Kazakhstan) JSC

Qualified Opinion

We have audited the Consolidated Financial Statements of Tengri Partners Investment Banking (Kazakhstan) JSC and its subsidiary (the "Group"), which comprise the Consolidated Statement of Financial Position as of December 31, 2024, the Consolidated Statement of Profit or Loss and Other Comprehensive Income, the Consolidated Statement of Changes in Equity and the Consolidated Cash Flow Statement for the year ended December 31, 2024, and the notes to the Consolidated Financial Statements, including a summary of Basic Provisions of Accounting Policy.

In our opinion, except for the possible effects of the matters described in the paragraph headed "Basis for Qualified Opinion", the accompanying consolidated financial statements present fairly, in all material respects, the financial position of the Group as of December 31, 2024, and its financial performance and its cash flows for the year 2024 in accordance with International Financial Reporting Standards (hereinafter referred to as "IFRS").

Basis for Qualified Opinion

As discussed in note 17, the Group applies the practical expedient of IFRS 16 Leases by accounting for leases of office space as short-term leases. In doing so, IFRS 16 requires accounting for the expected lease term subject to renewal rights. Due to the limitation of the scope of the audit in relation to management's estimates in relation to the lease, we were unable to determine whether any adjustments were required to be made to the right-of-use asset and lease liability at December 31, 2024, (December 31, 2023: not identified).

We have performed audit in accordance with International Standards on Auditing (hereinafter referred to as "ISA"). In accordance with these standards our responsibilities are specified in the section "Auditor's Responsibility for the Audit of Consolidated Financial Statements" of our opinion. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (hereinafter referred to as the "Code") and the ethical requirements applicable to the audit of the Consolidated Financial Statements in the Republic of Kazakhstan. We have also fulfilled our other ethical responsibilities as set out in those requirements and the Code. We believe that we have obtained sufficient and appropriate audit evidence to provide a qualified opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Consolidated Financial Statements of the current period. These matters were considered in the context of our audit of the Consolidated Financial Statements taken as a whole and in forming our opinion on those statements, and we do not express a separate opinion on these matters.

Key Audit Matters

This matter was one of the most significant matters for our audit due to the fact that fee and commission income is the Group's main type of income. The Group earns several types of fixed fee and commission income, including fee and commission income that is dependent on the occurrence of specific events or volume of transactions. The Group's Management applies judgment in recognizing revenue in accordance with IFRS 15

The recognition of fee and commission income is disclosed in Note 3 "Fee and Commission Income" and Note 23 "Basic Provisions of Accounting Policy" to the Consolidated Financial Statements.

Revenue from Contracts with Customers.

Audit procedures in relation to key audit matters

We obtained an understanding of the process of recognizing fee and commission income. We analyzed the Group's Accounting Policy regarding the recognition of fee and commission income.

We performed analytical procedures in relation to fee and commission income to analyze unusual trends, including analysis of monthly fluctuations and changes in key revenue drivers such as number of customers and volume of transactions. On a sample basis, we reviewed the terms of transaction commissions for consistency with the primary documentation.

We analyzed fee and commission income information disclosed in the Notes to Consolidated Financial Statements.

Responsibility of Management and Persons Responsible for Corporate Governance, Consolidated Financial Statements

The Management is responsible for the preparation and fair presentation of Consolidated Financial Statements in accordance with IFRS and for the internal control system that the Management considers necessary for preparation of Consolidated Financial Statements free of material errors and omissions due to fraud or errors.

In preparing the Consolidated Financial Statements, Management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless Management either intends to liquidate the Group or to cease operations, or has no practical alternative but to liquidate or cease operations. Those charged with governance are responsible for overseeing the preparation of the Group's Consolidated Financial Statements.

Auditor's Responsibility for Audit of the Consolidated Financial Statements

Our purpose is to obtain reasonable assurance that the Consolidated Financial Statements are free from material errors and omissions, due to fraud or error, and to issue an Audit Report containing our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Errors and omissions may be the result of fraud or errors and are considered significant if it can be reasonably assumed that individually or in combination it can affect the economic decisions of users made on the basis of Consolidated Financial Statements.

Auditor's Responsibility for the Audit of the Consolidated Financial Statements, continued

Within the audit performed in accordance with ISA, we apply professional judgment and with an attitude of professional skepticism throughout the audit. Besides, we:

- Identify and assess the risks of material misstatement of the Consolidated Financial Statements, whether due to
 fraud or error; design and perform audit procedures responsive to those risks; and obtain audit evidence that is
 sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement
 resulting from fraud is greater than the risk of not detecting a material misstatement resulting from error because
 fraud may include collusion, forgery, willful omission, misrepresentation, or actions to circumvent an operating
 system of internal control;
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are
 appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the
 Group's internal control;
- assess the appropriateness of accounting policy used and the reasonableness of accounting estimates and related disclosures made by Management;
- conclude on the appropriateness of Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt about the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Consolidated Financial Statements or, if the disclosures are inadequate, to modify our opinion. Our conclusions are based on audit evidence obtained up to the date of our Audit Report. However, future events or conditions may cause the Group to lose its ability to continue as a going concern;
- We evaluate the overall presentation of the Consolidated Financial Statements, their structure and content, including the disclosures, and the fair presentation of the underlying transactions and events.

We inform those charged with governance of the planned scope and timing of the audit and of significant audit matters, including significant deficiencies in internal control.

gri Partners Investment Banking (Kazakhstan) JSC

1. General information

(a) Organization and Operations

Tengri Partners Investment Banking (Kazakhstan) JSC (hereinafter referred to as the "Company") is a joint stock company incorporated in the Republic of Kazakhstan. The immediate owner is Tengri Partners (Kazakhstan) LLP, which ultimately owns 100% of the Company.

The Company's principal office is registered and located at: Kazakhstan, 050059, Almaty, 17, Al-Farabi Ave., Block 4B, Office 705.

The principal activities of the Company are:

- broker-dealer and other activities related to the securities market:
- provision of investment consulting;
- analytical research.

The Company holds the following licenses:

- License No. 3.1.1.244 dated November 17, 2020, for operations in the securities market, namely brokerage and dealer activities with the right to maintain accounts as a nominal holder;
- License No. 4.3.14 dated February 22, 2021, for foreign exchange operations, excluding transactions with foreign currency in cash.

As of December 31, 2024, the Group had 40 employees (2023: 41 employees).

These Consolidated Financial Statements include the Company and its subsidiary Tengri Partners Financial Advisory (Kazakhstan) LLP (hereinafter referred to as the "Group"). The principal activity of the subsidiary is ancillary activities in financial services (2023: ancillary activities in financial services).

The Group has a branch (hereinafter referred to as the "Branch") in the International Financial Center Astana (hereinafter referred to as the "MFCA") registered on January 17, 2020, in accordance with the rules of MFCA.

The principal activities of the Branch in MFCA are:

- broker-dealer and market-making services;
- nominee and underwriting services;
- financial consulting.

The registered office of the Branch is located at the address: Astana, 55/20, 55/21, Mangilik El Avenue, Block C4.2, working area No. 125.

As at December 31, 2024, the Branch had 3 employees (2023: 3 employees).

(b) Operating Environment in Kazakhstan

The Group's activities are primarily concentrated in Kazakhstan. Accordingly, the Group is exposed to country risk, which includes economic, political, and social risks inherent to doing business in Kazakhstan. These risks include matters arising from governmental policies, economic conditions, the introduction of or changes in tax and legal regulations, currency fluctuations, and the enforceability of contractual rights.

This Consolidated Financial Statements reflects Management's assessment of the impact of the economic environment in Kazakhstan on the Group's operations and financial position. Future economic conditions may differ from those assessments.

2. Basis for Preparation of the Financial Statements

(a) Statement of compliance with IFRS

These Consolidated Financial Statements have been prepared in accordance with International Financial Reporting Standards (hereinafter referred to as the "IFRS") as issued by the International Accounting Standards Board (hereinafter referred to as the "IASB") and interpretations issued by the International Financial Reporting Interpretations Committee (hereinafter referred to as the "IFRIC") of the IASB.

(b) Going concern basis

These Consolidated Financial Statements have been prepared on the assumption that the Group will continue as a going concern.

Tengri Partners Investment Banking (Kazakhstan) JSC Notes to the Consolidated Financial Statements

for the year ended December 31, 2024

2. Basis of Preparation of Financial Statements, continued

The Group has undergone a number of changes in the recent past and in recent years has shown a stable positive profitability trend. As a consequence, the Group's well-being will largely depend on the continuation of these dynamics in the future. Management believes that it is making sufficient efforts to implement these plans and believes that the Group's sufficient working capital and the support of its owners represent a reasonable assurance that it will be able to meet its anticipated cash requirements.

After reviewing the Group's forecast prices for its services, sales, debt and capital commitments and assessing the possible adverse effects, such as lower prices for services provided, higher operating costs, Management reasonably believes that the Group has adequate resources to continue in operation for the foreseeable future. Accordingly, the Group continues to adopt the going concern basis of accounting in preparing its Financial Statements

(c) Basis of measurement

These Consolidated Financial Statements have been prepared under the historical cost convention, except for investments measured at fair value in accordance with IFRS 9 Financial Instruments (see note 11(a) and 11(b)).

(d) Basis of consolidation

The Consolidated Financial Statements reflect the financial position of the Group as of December 31, 2024, and the financial performance of the Group for the year ended December 31, 2024.

Subsidiaries are entities controlled by the Group. Control exists when the Group has the power, directly or indirectly, to direct the activities of an enterprise that most significantly affect the returns to the Group from its involvement with the enterprise. The Financial Statements of subsidiaries are consolidated from the date on which control is transferred to the Group and are no longer consolidated from the date that control effectively ceases. When the Group ceases to control an entity, any retained interest in the entity is remeasured to its fair value with adjustments to the carrying amount recognized in profit or loss. The fair value is taken as the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate, joint venture or financial asset. In addition, any amounts previously recognized in other comprehensive income in respect of that entity are accounted for as if the Group had directly disposed of the related assets or liabilities. Such treatment may mean that amounts previously recognized in other comprehensive income are charged to profit or loss.

The financial statements of subsidiaries are prepared for the same reporting year as the Company, using consistent accounting policy. All intra-group accounts and transactions, including unrealized gains on intra-group transactions, are eliminated in full. Unrealized losses are eliminated in the same manner as unrealized gains, except that they are eliminated only to the extent that there is no indication of impairment.

(e) Functional and presentation currency

The national currency of Kazakhstan is the Kazakhstan tenge (hereinafter referred to as the "tenge" or "KZT"), which is the Group's functional currency and the presentation currency of these Financial Statements. All financial information presented in tenge has been rounded to the nearest thousand ("thousand tenge").

(f) Adoption of new standards and interpretations

In preparing these Consolidated Financial Statements, the Group has adopted the following standards and amendments effective from January 1, 2024:

- Amendments to IAS 7 and IFRS 7 Financing Arrangements for Supplies
- Amendments to IAS 1 Classification of Liabilities as Current and Non-current
- · Amendments to IAS 1 Non-current Liabilities with Covenants
- Amendments to IFRS 16 Lease Liability in a Sale and Leaseback Transaction

The above standards and amendments did not have a material impact on the Group's Financial Statements.

(g) New standards and interpretations not yet adopted

In preparing these Consolidated Financial Statements, the Group has not early adopted any new standards, interpretations or amendments that have been issued but are not yet effective. These standards and interpretations are not expected to have a material impact on the Group's Financial Statements.

2. Basis of Preparation of Financial Statements, continued

(h) Use of estimates and assumptions

Group's Management uses judgments, estimates and assumptions relating to the reporting of assets and liabilities and the disclosure of contingent assets and liabilities to prepare these Consolidated Financial Statements in conformity with IFRS. Judgments are based on Management's best knowledge of certain facts and circumstances relating to past experience. Actual results may differ from these estimates.

Assumptions and estimates made on their basis are constantly analyzed for the need to change them. Changes in accounting estimates are recognized in the reporting period when these estimates were revised and in all subsequent periods affected by these changes.

The following notes provide information about, among other things, the key areas of estimation uncertainty and critical judgments in applying provisions of accounting policy that have the most significant effect on the amounts recognized in the financial statements. However, Management does not expect the value of assets and liabilities affected by these factors to change significantly over the next 12 months within a reasonably possible range, unless otherwise stated.

- Note 8 Income Taxes. Management has made an assessment of the completeness of tax liabilities that are subject
 to examination by the tax authorities and the timing of the realization of temporary differences;
- Note 11 Investments Measured at Fair Value. An estimate has been made of the fair value of investments;
- Note 12 Trade and Other Receivables. Management has made an estimate in respect of expected credit losses;
- Note 14 Loans Receivable. Management has made an estimate in respect of the fair value of loans based on market borrowing rates;
- Note 19 Financial Risk Management Objectives and Policies. The fair value analysis is based on estimates of future cash flows and discount rates
- Note 20 Contingencies and Commitments. This disclosure requires Management to estimate liabilities and determine
 the probability of future cash outflows.

(I) Segment reporting

The information provided to Management for planning and evaluation of the Group's operations is prepared in accordance with the Group's operating structure. For management purposes, the Group is considered as a single segment according to the nature of its operations, products produced and services rendered.

(j) Comparative information

When the presentation of the Consolidated Financial Statements changes during the year, comparative figures are restated to conform to the new presentation.

3. Fee and Commission Income

thous. tenge	2024	2023
Brokerage and nominee holding services	1,408,601	1,317,797
Financial advisor services	303,197	388,307
Underwriting services	68,507	211,147
	1,780,305	1,917,251

The Group provides all of its services under pre-existing short-term and long-term contracts. The terms of the contracts vary depending on the subject matter of the contract and may be fixed-price or fee-based (in particular, brokerage services).

The Group's services are sold over a period of time as the customer both receives and consumes the benefits as the Group delivers them. The Group invoices the costs incurred on a monthly basis.

		_

(c) Unrecognized deferred tax assets

Deferred tax assets have not been recognized due to the fact that it is not probable that the Group will generate future taxable income against which these deferred tax assets can be offset.

Tax losses can be offset against future taxable income within the statute of limitations period, which is currently 10 years.

9. Cash assets

thous. tenge	2024	2023
Cash on current bank accounts	9,651	86,168
Cash in organizations rendering services on the securities market	11,500	11,500
	21,151	97,668

10. Receivables Under Repo Transactions

As of December 31, 2024, the Company and Kazakhstan Stock Exchange JSC had outstanding reverse repurchase agreements for the amount of 134,107 thousand tenge (2023: 87,093 thous. tenge). The subject of these agreements were securities included in the corporate securities basket, yield on corporate transactions was 14.8% p.a. (2023: 15.86%) and repo closing date in January 2025 (2023: January 2024).

Payables to related parties	8,800	3,000
Other accounts payable	2,655	547
	197,291	69,115

17. Rent

The Group leases office space. Lease agreements are generally for fixed periods of 12 months or less, but have an option to renew. Lease agreements do not contain any special terms and conditions (covenants) except for protective measures in respect of leased assets owned by the lessor. Leased assets may not be subleased or used as collateral.

The Group applies practical expedients and does not recognize right-of-use assets and lease liabilities for leases of low-value assets or short-term leases of 12 months or less. Lease payments under these leases are recognized in the income statement on a straight-line basis over the lease term (see note 6).

Tengri Partners Investment Banking (Kazakhstan) JSC **Notes to the Consolidated Financial Statements**

for the year ended December 31, 2024

18. Capital

(a) Share capital

Tengri Partners (Kazakhstan) LLP ASP CAPITAL RK LIMITED, a private company

	2024		2023
Share, %	thous. tenge	Share, %	thous, tenge
100%	2,256,804	50%	1,128,402
0%	-1	50%	1,128,402
100%	2,256,804	100%	2,256,804

The authorized share capital of the Company is 3,000,000 ordinary shares of KZT 1,000 each. As of December 31, 2024, the issued share capital amounted to 2,451,604 shares (2023: 2,451,604 shares). The issued share capital is fully paid up.

As of December 31, 2024, the Company's security holder register lists Leasing Group JSC under a short-term exchangetraded direct repurchase transaction entered into by Leasing Group JSC as a customer. The Company's ordinary shares were pledged as collateral.

(b) Earnings per share

Basic earnings per share is determined by dividing the net income for the period attributable to common shareholders by the weighted average number of common shares outstanding during the period. The Company has no dilutive shares.

	2027	2020
Net income, thous. tenge	235,279	521,199
Number of common shares, pieces	2,451,604	2,451,604
Basic and diluted earnings per share, tenge	96	213

(c) Book value per share

Book value of the share was calculated in accordance with the requirement of article 9.2.1 of KASE Listing rules. The book value of the share was presented as follows:

thousand tenge (unless otherwise stated)	2024	2023
Assets	1,449,348	1,431,584
Intangible assets (within fixed assets)	(3,564)	(4,148)
Liabilities	(220,631)	(344,980)
Net assets	1,225,153	1,082,456
Number of common shares, pieces	2,451,604	2,451,604
Book value per share, tenge	500	442

(d) **Dividends**

In 2024, the Company accrued and paid dividends for 2023 in the amount of 93,166 thous. tenge and paid dividends accrued for 3 quarters of 2023 in the amount of 168,572 thous. tenge.

In 2023, the Company accrued and paid dividends for 2022 in the amount of 164,047 thous, tenge and accrued dividends for 3 quarters of 2023 in the amount of 168,572 thous. tenge, of which 143,286 thous. tenge is recognized as dividends payable and 25,286 thous. tenge as withholding tax liability.

19. Financial Risk Management Objectives and Policies

(a) Overview

The use of financial instruments exposes the Group to the following types of risk:

- Credit risk
- · Liquidity risk;
- Market risk.

The Group's Management bears full responsibility for the organization of the risk management system and for overseeing its operation.

The Group's risk management policies are established to identify and analyze the risks faced by the Group, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to determine whether changes are necessary to reflect changes in market conditions and the Group's activities. The Group establishes training and management standards and procedures to create a structured and effective control environment in which all employees understand their roles and responsibilities.

The Group's Management oversees compliance with the Group's risk management policies and procedures and reviews the adequacy of the risk management framework in relation to the risks faced by the Group.

(b) Categories and fair values of financial assets and liabilities

Percentage of

19. Financial Risk Management Objectives and Policies, continued

(c) Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations. This risk arises principally from the Group's trade and other receivables, including repurchase receivables, and cash and loans receivable.

The carrying amount of financial assets represents the maximum exposure to credit risk. The maximum exposure to credit risk at December 31 was:

thous. tenge	2024	2023
Cash (net of cash on hand)	21,151	97,668
Receivables Under Repo Transactions	134,107	87,093
Trade and other accounts receivable	51,017	399,453
Loans issued	397,458	63,157
	603,733	647,371

Cash assets

Credit risk relating to cash is monitored and controlled by the Group's Management in accordance with the Group's policy. Free cash is placed within specified limits with the most reliable Kazakhstan banks with credit ratings from Moody's ranging from "Ba3" to "Baa2". This policy is aimed at reducing the concentration of credit risk and minimizing possible financial losses in case of non-fulfillment by banks of their contractual obligations.

thous. tenge	2024	2023
Ratings from "Baa1" to "Baa3"	3,223	1,772
Ratings from "Ba1" to "Ba3"	-	1,545
No rating (Central Securities Depository JSC)	6,368	82,851
No rating (Kazakhstan Stock Exchange JSC)	11,560	11,500
	21,151	97,668

Trade and other accounts receivable

The Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer. These trade receivables relate to customers who operate on installment payment terms. The Group continuously monitors trade receivables to minimize doubtful accounts.

The Group's exposure to credit risk relates entirely to customers in Kazakhstan.

The Group establishes an allowance for impairment of receivables, which represents its estimate of expected credit losses. Trade receivables by age at December 31:

expe	
,018 2	28% 20,001
5,512 10	00% 35,512
5,530 5	52% 55,513

	Total los 1,018 2 5,512 10 6,530 6 0,217 6,743 10

for the year ended December 31, 2024

19. Financial Risk Management Objectives and Policies, continued

(d) Liquidity risk

The Group manages liquidity risk by monitoring forecast cash flows and maintaining a balance between continued funding and flexibility through the use of asset purchases in installments.

Maturities of Financial Liabilities

The table below analyzes the Group's financial liabilities payable on a gross basis into relevant maturity groupings based on the period between the reporting date and the contractual maturity dates:

thous, tenge	Upon request	Less than three months	Three to 12 months	One to five years	Total
2024					
Cash assets	21,151			a sinast-i	21,151

	16,643	1,064,526	45,699	200	1,127,068

(e) Price risk

Price risk is the risk that the value of a financial instrument will fluctuate as a result of changes in market prices, whether those changes are caused by factors specific to the individual security or its issuer, or factors affecting all securities traded in the market. The Group is exposed to price risk due to the effect of general or specific market movements on its financial instruments.

A 1% increase (decrease) in the prices of financial assets at December 31 would have increased (decreased) profit after tax by the amounts shown in the table below. This analysis assumes that all other variables remain constant.

thous. tenge	2024	2023
Investments at fair value through profit or loss		
- impact on net income	8,073	6,919
Investments at fair value through other comprehensive income - impact on equity	2	2

19. Financial Risk Management Objectives and Policies, continued

(e) Interest rate risk

The Group has no floating rate financial instruments at the reporting dates and is not exposed to interest rate risk.

(g) Currency risk

The Group is exposed to currency risk on transactions denominated in a currency other than its functional currency.

The Group's exposure to foreign currency risk was as follows:

thous. tenge	US dollar	Russian ruble
2024		
Investments at fair value through profit or loss	115,451	ostan) us - u
Trade and other accounts receivable	6,616	Statemer±.
Cash assets	2,236	
Trade and other accounts payable	(127,447)	_
	(3,144)	
2023		
Trade and other accounts receivable	328,265	-
Cash assets	2,052	_
Trade and other accounts payable	(16,921)	_
	313,396	

Financial instruments presented in KZT are not exposed to currency risk and are included for reconciliation of totals.

Sensitivity Analysis

The table below summarizes the change in the financial result due to possible changes in exchange rates used at the reporting date:

thous. tenge	2024		2023	
	Increase in exchange rate, %	Effect on profit	Increase in exchange rate, %	Effect on profit
US dollar	10	(314)	10	31,340
	2024		2023	
thous. tenge	Decrease in exchange rate, %	Effect on profit	Decrease in exchange rate, %	Effect on profit
US dollar	10%	314	(10)	(31,340)

(h) Capital Management

The Group's primary objectives with respect to capital management are to safeguard the Group's ability to continue as a going concern and to maintain an optimal capital structure to maximize the return to owners and other stakeholders by reducing the Group's cost of capital. The Group's overall policy remains unchanged from 2022.

20. Contingencies and Commitments

(a) Taxation contingencies in Kazakhstan

Uncertainties in the Interpretation of Tax Legislation

The Group is subject to uncertainties regarding its tax liabilities. Kazakhstan tax legislation and practice are in a state of continuous development and therefore are subject to changes and varying interpretations, which may apply retrospectively.

Management's interpretation of such legislation as applied to the transactions and activity of the Group may not coincide with that of the tax authorities. As a result, transactions and operations may be challenged by the relevant tax authorities, which may result in additional taxes, penalties and interest being levied against the Group, which could have a material adverse effect on the Group's financial position and results of operations.

Period of Additional Taxation

The tax authorities in Kazakhstan have the right to impose additional taxes for a period of three or five years following the end of the relevant tax period, depending on the category of taxpayer or tax period. In certain cases, this period may be extended for a further three years.

Possible Additional Tax Liabilities

Management believes that the Group is in compliance with the tax legislation in force in Kazakhstan and the tax terms of the contracts entered into that affect its operations and, therefore, no additional tax liabilities are likely to arise. However, for the reasons set out above, there remains a risk that the relevant tax authorities may interpret the contractual provisions and tax legislation differently.

As a result, additional tax liabilities may arise. However, due to a number of uncertainties described above, it is impracticable for management to estimate the financial effect of any potential additional tax liabilities, if any, and any interest and penalties for which the Group may be liable.

(b) Insurance

The insurance industry in the Republic of Kazakhstan is in a developing state and many forms of insurance protection common in other parts of the world are not generally available in Kazakhstan. The insurance coverage available does not provide full coverage in the event of significant losses.

(c) Legal proceedings

In the ordinary course of business, legal proceedings may be instituted against the Group. Management believes that the ultimate liability, if any, arising from such actions or complaints will not result in unfavorable material consequences affecting the Group's financial position or results of operations. As of December 31, 2024, the Group was not involved in any significant litigation.

21. Related Party Transactions

Related parties include the following:

- · Key management personnel.
- Owners.
- Companies under common control.
- Others.

for the year ended December 31, 2024

21. Related Party Transactions, continued

(a) Management remuneration

Compensations received by key management are included in salary expenses within general administrative expenses (see note 6) and amounted to 788,951 thousand tenge (2023: 550,243 thous. tenge).

(b) Related party transactions

thous. tenge	Key management personnel	Owners	Companies under common control	Others	Total
2024					
Related parties receivables	-	62,185	6,185	336,036	404,406

Related party income	3,497	54,897	146	_	58,540
Related party expenses	_	(30,552)	-		(30,552)

(c) Terms and conditions of related party transactions

Pricing of related party transactions is determined on a regular basis depending on the nature of the transaction.

22. Group Information

The consolidated accounts include the accounts of the Company and its following subsidiary:

	Country of Owners			wnership %
	Principal activities	incorporation	2024	2023
Tengri Partners Financial Advisory (Kazakhstan) LLP	Other auxiliary activities in financial services other than insurance and pensions	Kazakhstan	100%	100%

23. Basis Provisions of Accounting Policy

The Group has consistently applied the following significant accounting policies in the preparation of the financial statements.

(a) Operations in Foreign Currency

Transactions in foreign currencies are translated into the Group's functional currency at exchange rates at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies at the reporting date are translated to the functional currency at the exchange rate at that date. Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are translated to the functional currency at the exchange rate at the date when the fair value was determined and those measured at historical cost are translated at the date of the transaction. Exchange differences arising from the translation at the exchange rate at the date of the transaction and from the translation of monetary assets and liabilities at the exchange rate at the reporting date are recognized in the income and expense statement.

The following exchange rates have been used in the preparation of the financial statements:

	2024		2023	
End of the	-	End of the		
year	Average	year	Average	
525.11	469.31	454.56	456.31	
4.88	5.07	5.06	5.40	
	year 525.11	End of the year Average 525.11 469.31	End of the year Average End of the year 525.11 469.31 454.56	year Average year Average 525.11 469.31 454.56 456.31

2022

Basis Provisions of Accounting Policy, continued

(b) Fixed assets

23.

Recognition and Accounting

Items of fixed assets are stated at cost less accumulated depreciation and impairment losses.

Cost includes expenditure that is directly attributable to the acquisition of the asset. The cost of self-constructed assets includes the cost of materials and direct labor, any other costs directly attributable to bringing the asset to a working condition for its intended use, and the costs of dismantling and removing the items and restoring the site on which they are located and capitalized borrowing costs. Purchased software that is integral to the functionality of the related equipment is capitalized as part of the cost of that equipment.

Where an item of fixed assets comprises major components having different useful lives, each component is accounted for as a separate item (major component) of fixed assets.

Any gain or loss on disposal of an item of fixed assets is determined by comparing the proceeds from disposal with the carrying amount of the item and is recognized net within "other income" or "other expenses" in net income or loss.

Depreciation

Depreciation is recognized on a straight-line basis over the estimated useful life of the asset to its residual value. The expected useful lives of fixed assets are:

Computers and office equipment

3-5 years;

Furniture and other

5-10 years.

The estimated useful lives and residual values of fixed assets are reviewed at each reporting date.

(c) Impairment

The carrying amounts of long-lived assets are reviewed for impairment whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. If any indication of impairment exists, an assessment is made to determine whether the carrying amount of the assets exceeds their recoverable amount. This analysis is performed on an asset-by-asset basis, except for assets that do not generate cash inflows on their own. In this case, the analysis is performed at the level of the cash-generating unit.

Where the carrying amount of an asset or cash-generating unit exceeds its recoverable amount, a provision is made to record the asset at the lower amount. Reversals of impairment losses are recognized in income and expenses.

Calculation of Recoverable Amount

The recoverable amount of an asset is determined as the higher of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. The recoverable amount of assets that do not generate cash inflows independently is determined as part of the recoverable amount of the cash-generating unit to which the assets belong.

Reversal of Impairment Losses

A previously recognized impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

23. Basis Provisions of Accounting Policy, continued

(d) Accounts receivable

Accounts receivable are recognized at the billed amount less expected credit losses and generally exclude interest. Expected credit losses are recognized in a valuation allowance account if recovery of that amount is possible. Otherwise, the carrying amount of the receivable is written off.

The accounting policy for accounts receivable is discussed under "Financial Instruments".

(e) Cash

Cash includes cash at banks available on demand and subject to insignificant risk of changes in value and cash on hand.

(f) Borrowings

Borrowings are initially recognized at the fair value of the proceeds received less directly attributable transaction costs. Subsequent to initial recognition, borrowings are measured at amortized cost using the effective interest method.

(g) Provisions

Provisions are recognized when the Group has a present legal or constructive obligation as a result of a past event, it is probable that an outflow of economic resources will be required to settle the obligation, and a reasonable estimate of the amount can be made. If the effect of the time value of money is material, provisions are measured by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability.

Where discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost. Over time, the discounted provision is increased (decreased) by the amount of the change in present value based on discount rates that reflect current market assessments and the risks specific to the liability. At the time the provision is established, the related asset is capitalized if future economic benefits are expected to arise from its use and depreciated using the unit-of-production method.

(h) Pension obligations

The Group does not have any pension arrangements separate from the State pension system of the Republic of Kazakhstan, which requires current contributions by both the employer and employee calculated at a defined percentage of salary.

(i) Revenue

At the inception of a contract to sell goods or services ("assets"), the Group evaluates the assets promised under the contract with a customer and identifies as a performance obligation each promise to transfer to the customer an asset that is distinct or a series of distinct assets that are substantially the same and are transferred to the customer in a similar pattern.

Fee and Commission Income

Commissions are recognized as revenue in the period in which they are earned, unless they relate to services to be provided in future periods. If they are fees for services to be rendered in future periods, they are deferred and recognized in the income and expense statement as services provided over the term of the contract. Origination and other one-time commissions are also deferred and recognized over the duration of the contract.

23. Basis Provisions of Accounting Policy, continued

Interest Income and Expense

Interest income is recognized in the income and expense statement as it accrues, taking into account the effective yield on the asset or the applicable floating rate. Interest income also includes amortization of premium or discount.

Once the recorded value of a financial asset or a group of financial assets has been reduced due to an impairment loss, interest income continues to be recognized using the original effective interest rate based on the new carrying amount.

Realized Incomes and Losses Recognized in the Income and Expense Statement

Realized incomes and losses from the disposal of property, plant, and equipment are calculated as the difference between the net proceeds from the sale and the asset's original or amortized cost. Realized incomes and losses are recognized in the income and expense statement when the sale transaction is completed.

(j) Financial income

Financial income comprises interest income on funds invested. Interest income is recognized as it accrues, calculated using the effective interest method.

(k) Income tax expense

Income tax expense comprises current and deferred tax. Income tax expense is recognized in income or loss except to the extent that it relates to items recognized in equity, in which case it is also recognized in equity.

Current income tax expense is the expected tax payable on the taxable income for the year, together with any adjustment to tax payable in respect of previous years.

Deferred tax is provided using the balance sheet liability method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes.

Deferred tax assets and liabilities are measured at tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the balance sheet date.

A deferred tax asset is recognized only to the extent that it is probable that future taxable income will be available against which the asset can be utilized. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when the deferred taxes relate to the same taxable entity and the same taxation authority.

(m) Financial instruments

The Group recognizes financial assets and liabilities on its statement of financial position when it becomes a party to the contractual provisions of the instrument.

Financial Assets

Initial recognition and measurement

Financial assets within the scope of IFRS 9 are classified as financial assets at amortized cost, at fair value through income or loss or at fair value through other comprehensive income, as appropriate. The Group determines the classification of its financial assets at initial recognition depending on its business model for managing financial assets and contractual cash flow obligations.

23. Basis Provisions of Accounting Policy, continued

A financial asset is classified and measured at amortized cost or fair value through other comprehensive income if the cash flows are "solely payments of principal and interest" on the principal outstanding. Financial assets with cash flows that do not meet the cash flow criteria are classified as at fair value through profit or loss, irrespective of the business model.

When financial assets are recognized initially, they are measured at fair value, being the consideration received plus directly attributable transaction costs. Any incomes or losses on initial recognition are recognized in the income and expense statement.

Subsequent evaluation

Financial assets classified at amortized cost are accounted for using the effective interest rate (hereinafter referred to the "EIR") method. Amortized cost is calculated by taking into account discounts or premiums and acquisition commissions. Amortization of the difference between nominal value and amortizable value is recognized in the income and expense statement within finance income.

Financial assets at fair value through profit or loss are carried in the statement of financial position at fair value with net changes in fair value recognized in the income and expense statement.

Derecognition

A financial asset is derecognized when the Group loses control over the contractual rights that comprise that asset. This occurs when the rights are realized, expire or are transferred.

Impairment of Financial Assets

The Group estimates the expected credit losses that may arise from financial assets measured at amortized cost. This estimate includes the likelihood that events will occur as a result of which the counterparty will be unable to pay amounts due according to contractual obligations.

Expected credit losses are calculated for possible events during the term of financial assets carried at amortized cost. Where receivables are not carried at amortized cost and there has been no significant change in the credit risk of the financial asset since initial recognition, the expected credit losses are calculated for events that are likely to occur within 12 months of the reporting date.

Financial Liabilities

Initial recognition and measurement

Financial liabilities within the scope of IFRS 9 are classified as financial liabilities at fair value through income or loss and measured at amortized cost, as appropriate. The Group determines the classification of its financial liabilities at initial recognition.

All financial liabilities are recognized initially at fair value, being the consideration paid. Financial liabilities measured at amortized cost include directly attributable transaction costs.

Subsequent evaluation

Trade and other payables are measured at amortized cost using the EIR method. Amortized cost is calculated by taking into account discounts or premiums and acquisition commissions. Amortization of the difference between nominal value and amortizable value is recognized in the income and expense statement within finance costs.

Financial liabilities at fair value through income or loss are carried in the statement of financial position at fair value with net changes in fair value recognized in the income and expense statement.

for the year ended December 31, 2024

23. Basis Provisions of Accounting Policy, continued

Derecognition

A financial liability is derecognized when the obligation under the liability is discharged, cancelled, or expires. Where an existing financial liability is replaced by another from substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognized in the income and expense statement.

Financial Instruments Offset

Financial assets and financial liabilities are offset and the net amount presented in the statement of financial position only when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the assets and settle the liabilities simultaneously.

Fair Value of Financial Instruments

At each reporting date, the fair value of financial instruments that are traded in an active market is determined based on quoted prices, without adjustments for transaction costs. The fair value of financial assets that are not traded in an active market is determined using appropriate valuation techniques. Such techniques may include using recent arm's length market transactions, current fair value of a substantially similar instrument, discounted cash flows and other valuation techniques.

24. Events after the Reporting Period

Change of the Chairman of the Management Board

At the meeting of the Board of Directors of the Company held on January 30, 2025, it was resolved to elect Nurlan Serikovich Yessembayev as the Chairman of the Management Board of the Company from January 31, 2025.
